## PROFILE

Creative and meticulous Web Developer with excellent communication skills. Capable of working effectively both in a team and independently on diverse projects. My proactive approach and analytical mindset enable me to deliver innovative and tailored solutions to meet client needs. Passionate about exploring new technologies, I am a dedicated developer constantly evolving.

## PROFESSIONAL EXPERIENCE

### Front-End Developer | EndlessByte - Tunis (Freelance) July 2023 - Present

- Designed and optimized responsive and accessible websites using Next.js, React.js, and Tailwind CSS, improving page load speed by 30% and user experience by 25% through minification and caching techniques.
- Enhanced web application performance following Google Lighthouse best practices, reducing load times by 30% and improving SEO, resulting in a 20% increase in organic traffic.

### Full Stack Intern | Sindibad Group - Sousse February 2024 - June 2024

- Developed application features by implementing innovative technical solutions tailored to client needs, improving efficiency by 15%.
- Utilized frameworks such as Angular, Tailwind CSS, and Spring Boot to streamline the development of complex applications, reducing development time by 20%.
- Participated in team meetings to discuss progress, challenges, and opportunities in software development, contributing to a 10% improvement in team collaboration.

### Odoo Developer | Ecomptable - Tunis July 2024 - March 2025

- Developed and customized Odoo modules to meet specific client requirements in accounting, inventory management, and sales.
- Collaborated with business teams to analyze functional needs and propose tailored solutions.
- Provided technical support to users and conducted training to maximize adoption of deployed solutions.

## SKILLS

- Programming Languages:** Java, Python, C, JavaScript, TypeScript, SQL
- Front-End:** HTML, Angular, React.js, Next.js, Tailwind CSS
- Back-End:** Spring Boot, Node.js, Next.js, Microservices Architecture, RESTful APIs
- Databases:** PostgreSQL, Prisma, Supabase
- Project Management Tools:** SCRUM, Morgen, Notion, Jira, Trello
- CRM:** Odoo
- DevOps:** Docker, GitHub, CI/CD

## CERTIFICATIONS

- Frontend Developer – React (**HackerRank**)
- Scrum Fundamentals Certified – **SCRUMstudy**
- Scrum for Ops and DevOps Fundamentals – **SCRUMstudy**
- Docker for Developers – **OpenClassrooms**
- Python Programming – **Coursera**
- Java – **HackerRank**
- Cisco CCNA1: Introduction to Networks – **Cisco Networking Academy**
- Microsoft Certified: Azure Fundamentals (AZ-900) – **Microsoft**

## PERSONAL PROJECTS

---

### Gaming Zone - PFA Project (AI Platform for Gamers)

Developed an interactive web application for video game enthusiasts, integrating an AI-based game recommendation model and designing a modern interface with dynamic social features.

### Swish Smash - Web Application for Restaurants (Freelance Project)

Full-stack platform built with Next.js, Prisma, and PostgreSQL. Features include account creation, table reservations, online ordering, and secure payments via Stripe. Integrated CI/CD and deployed with a custom domain.

### Personal Portfolio - digitaldreams.tn

Developed a personal website using React.js to showcase my projects, skills, and experiences. Features responsive design, multilingual navigation, and continuous integration hosting.

### Potential - AI Solution for International Competition

Developed an intelligent web application for a competition in the UAE (achieved 6th place). Utilized Microsoft Azure for scalability, cloud services, and AI integration, with automated CI/CD deployment.

### PromoLab - Web Platform for Business

Built a website for PromoLab to manage and showcase products, including a custom back-office, continuous deployment, and professional hosting with a domain.
