PROFILE

RHCSA-certified (Red Hat) and Azure Fundamentals (AZ-900) Cloud & DevOps Engineer, passionate about infrastructure automation, containerization and CI/CD pipelines. Hands-on production experience with Docker, GitHub Actions, Linux (RHEL/Ubuntu) and microservices architectures, complemented by full stack expertise (Next.js, Spring Boot, PostgreSQL). Detail-oriented, self-driven and problem-solving focused.

CERTIFICATIONS

- ★ Red Hat Certified System Administrator (RHCSA), [Red Hat](#)
- ★ Microsoft Certified: Azure Fundamentals (AZ-900), [Microsoft](#)
- Cisco CCNA1: Introduction to Networks, [Cisco Networking Academy](#)
- Docker for Developers, [OpenClassrooms](#)
- Scrum Master Certified, [SCRUMstudy](#)
- Scrum for Ops and DevOps Fundamentals, [SCRUMstudy](#)
- Frontend Developer (React), [HackerRank](#)
- Python Programming, [Coursera](#)

TECHNICAL SKILLS

Cloud & DevOps	Docker, Docker Compose, GitHub Actions (CI/CD), Linux (RHEL/Ubuntu), Bash scripting, Nginx, Azure CLI, Azure Services (AZ-900), Kubernetes, n8n, Power Automate (RPA), VPS Deployment
Languages	Python, JavaScript, TypeScript, Java, C, SQL, Bash
Back-end	Spring Boot, Node.js, FastAPI, Next.js, RESTful APIs, Microservices architecture, Microsoft Graph API
Front-end	React.js, Next.js, Angular, Tailwind CSS, HTML5
Databases	PostgreSQL, Prisma, Supabase, Redis (caching)
Project Mgmt	SCRUM, Jira, Trello, Notion
CRM / ERP	Odoo (module development, business configuration, integration)

WORK EXPERIENCE

Software Engineering Intern, Automation & Web Development Sagemcom Ezzahra, Tunis	Jul 2025 — Aug 2025
- Designed a hybrid automation system for Product Change Notifications (PCN) combining a Web App (FastAPI, Next.js, React, Tailwind CSS) with ISO 27001 authentication and Microsoft Graph API integration, plus a Zero-Touch RPA flow via Power Automate running 24/7. - Fully eliminated manual data entry on critical references, ensured centralized traceability and full compliance with ISO 9001 and ISO 27001 standards.	
Odoo Developer, ERP & Integration Ecomptable, Tunis	Jul 2024 — Mar 2025
- Developed over 8 custom Odoo modules in Python covering accounting, inventory management and sales, deployed on Linux, reducing manual tasks by 30 % and accounting processing time by 25 %. - Trained more than 10 end-users and authored complete technical documentation, achieving a 95 % adoption rate within 3 months.	
Full Stack Intern, Development & Deployment Sindibad Group, Sousse	Feb 2024 — Jun 2024
- Built application features with Angular, Tailwind CSS and Spring Boot within a collaborative Git workflow (branches, pull requests, code reviews), cutting production bugs by 20 %. - Participated actively in all SCRUM ceremonies (daily standups, sprint planning and retrospectives), improving team collaboration and overall velocity by 10 %.	
Front-End Developer (Freelance) EndlessByte, Tunis	Jul 2023 — Present
- Independently designed and deployed more than 6 responsive websites with Next.js, React.js and Tailwind CSS for SME clients, with SEO optimization (Lighthouse 95+/100) driving a 20 % organic traffic increase over 3 months. - Set up GitHub Actions CI/CD pipelines on dedicated domains with SSL certificates, cutting release time by 50 % and ensuring 99.9 % uptime across all client projects.	

PERSONAL PROJECTS

- **GloreaAcademy: Intelligent Job Scraping & Auto-Apply Platform.** Microservices architecture (FastAPI, Next.js, PostgreSQL) covering 5+ job sources and cutting application time by 90 %. LLM scoring, Playwright stealth, AES encryption, Redis caching (60 % latency reduction) and n8n orchestration. VPS Linux deployment with Docker Compose, Kubernetes-ready architecture and GitHub Actions CI/CD delivering in under 3 minutes. *Solo project.*

- **Potential: AI Solution ranked 6th out of 80+ teams at international competition (UAE).** Cloud-native app leveraging 3 Microsoft Azure services (ML, App Service, Blob Storage), with CI/CD pipeline managing 2 environments (staging and production) that reduced time-to-production by 60 %. *Team of 4.*
- **Swish Smash: Full Stack Web App for Restaurants.** Next.js, Prisma ORM and PostgreSQL platform supporting 50 tables and 200 concurrent orders, with Stripe payments (85 % conversion), SSR architecture (API -40 %), CI/CD and SSL ensuring 99.9 % uptime. *Solo project.*
- **Gaming Zone: AI Platform for Gamers (Final Year Project).** Interactive app cataloguing 800+ titles with AI recommendation engine at 78 % accuracy (collaborative filtering) and full social feature set engaging 30+ beta testers. Lighthouse 91/100. Stack: React.js, Node.js, PostgreSQL. *Solo project.*
- **Personal Portfolio: digitaldreams.tn.** Multilingual React.js website (FR/EN/AR) showcasing 6+ projects, Lighthouse 95+/100, load time under 1.5 s, auto-deployed in under 60 seconds via GitHub Actions.

EXTRACURRICULAR ACTIVITIES

IEEE, Active Member & Founder

2021 — Present

- IEEE ISIMM SB (2021 to 2024), Marketing Manager at CS Chapter (2022 to 2024), participated in 3 national IEEE Tunisia Section congresses.
- WIE ACT 3.0 (2024): 4th place out of 30+ teams with project WIE Heal; WIE ACT 4.0 (2025): 3rd place out of 30+ teams with project Harvest Her.
- Founder of the IEEE iTeam University Student Branch (since 2024).

Tunivision ISIM, Active Member

2021 — 2022

EDUCATION

Computer Engineering Degree (in progress)

iTeam University

Sep 2024 — Present

Bachelor's Degree in Software Engineering

ISIMM, Institut Supérieur d'Informatique et de Mathématiques de Monastir

Sep 2021 — Jun 2024

Baccalaureate in Experimental Sciences

Lycee Rue de Russie, Tunis

Jun 2020
